From Final Fantasy XIV A Realm Reborn Wiki < Weapons Soul Jump to navigation Jump to quest Prerequisites Before you can begin creating your relic weapon, you must: An Unexpected Proposal Starting NPC: Rowena Starting Location: Dravania, Idyllshire (x5.7,y5.5) Your journey begins with the quest "An Unexpected Proposal". This is a one-time quest and does not need to be repeated; additional weapons will start from Lifeless Soul. For this mission, simply: the following 3 missions must be completed in order, for each relic, and are job specific. However, it is possible to work on several relics at once. For example, you can take the Lifeless Soul on your Paladin while working on Coming One for your Warrior. Initial Lifeless Soul NPC: Ardashir Starting Position: Alpha Quadrant, Azys Lla (x7,y11) Notes: Luminous crystals can fall from any FATE in that area, but you must complete them with a Gold Rating. It's completely random: you can get 3 Luminous Crystals in an hour or just 1 Luminous Crystal after three days. Prior to patch 3.57, the reduction rate appeared to be about 20%. The patch, however, polished even higher than that. Being at a party or having your Chocobo out has no direct effect on the fall rate. However, being able to complete FATE faster has obvious benefits. The only mandatory requirement is that you have an active "Soul Without Life" mission to make the Luminous Crystals appear. You can choose to do any job or use any weapon you want. When the Luminous Crystals fall, you will be alerted by a popup. Bright Crystals go into your regular inventory rather than your key object inventory. Make sure you have free space in your inventory. You do not need to stay for the full duration of the FATE, but only FATE successfully completed with at least one Gold Rating will drop Bright Crystals. It is recommended to use the Party Finder to quickly group with other players. A Chocobo companion can be used to facilitate the battle. Reward: 1447 gil, Animated Weapons Toughening Up Begins to Make Your Own NPC Initiation: Ardashir Starting place: Alpha Quadrant, Azys Lla (x7,y11) This is the long grinding stage. You have to collect 4 items for Gerolt. Each of these items requires additional items to be exchanged and are exchanged by talking to Cristiana in the Revenant's Toll. Both tokens are required. Talk to Ardashir (x7,y11) in Azys Lla. Travel to Mor Dhona to speak with Cristiana NOTE: you will only need to speak with her once; future soul weapons can be exchanged immediately with her. Exchange of tokens to Cristiana for the materials of the Soul weapons. Each material requires 10 NQ items each and 4 craft items each. The first set of NQ tokens can be obtained by Different ways: The second set of tokens is crafted with the following 1-star recipes: (Starting with patch 3.2, these recipes no longer require specialization for crafting) (Starting with patch 3.38 these crafted items must no longer be HQ) Token 2 Recipe class Seals of the company is Adamantite Adamantite Manufacture 1 Á Á Pterodactyl strap, 1 Á Á Adamantite Nugget, 1 Á Á Birch timber Á 5000 Á Titanium alloy mirror Alchemist 1 Á Á Titanium alloy square, 1 Á Holy water, 1 Á Á hard silver sand, 1 Á Á Á Vitriolo Á Á 5000 Á Á Dissipelling Arrow Carpenter 1 Á Blessed Fletchings, 1 Á Á Á sanctified chestnut timber, 1 Á Á Á Hard silver Nugget Á 5000 Á Kingcake Culinarian 1 Á Á Á Moogle Miniature, 1 Á Á Highland Scythe, 1ulla Á Á Á Yak Milk, 1 Á Okeanis Uvo Á (Since patch 3.2, these recipes no longer require specialization for crafts) Note: The following elements are materials necessary to realize the elements listed above. Although relatively slow, completing the Vanu Vanu and Vath Beast Tribe missions is a reliable way to bring 1 token per day (lightly more if you start from the minimum rank, due to bonus jobs from the rank up) along with XP for any Lv50-59 class/work, or Tomestones of Poetics (from Vanu Vanu) for Lv60 classes/avours. All the necessary tokens (non-identifying objects, handicrafts or corporate seals) can be purchased before this mission is actually available, even if Cristiana does not appear until this mission has begun. The Tomestones of Poetics are also useful. FATE's performance for elementary crystals will generate a lot of corporate seals unless you are extremely lucky. Rewards: 1512 gil, Arma Anima See also: Save the Queen: Gunnhildr blades, Zodiacal weapons and Anima Resistance Weapons are the Reliquia Weapons for 80-level Shadow Carriers released in Patch 5.25. Players need to complete the Resistance Arms Mission Chain to get one of the relics and are strongly linked to the Save the Queen plot: Blades of Gunnhildr. As players advance through the Resistance Arms missions, they will be able to get specific weapons that can be upgraded as they progress. Some Resistance Arma missions usesystem that will require players to proceed using the same class or job with which they accepted the mission. Lore For years, Bozia "the home of the Hrothgar" remained at the mercy of the rulers of GarlÁ©an. But the Empire has fallen into disarray, and the people of Doma and Ala Mhigo have rebelled to challenge their authority. The Bozjani, though heartened by the news, do not have the means to rebellion. To this end, they are looking for a standard under which their people can come together. A legendary weapon... Weapons of Resistance (iLv1 485) Main Article: Weapons of Resistance/Mission To unlock the chain of the mission, players must be at level 80 with a Disciple of War or a Disciple of Magic and complete the Search Carriers of the Main Scenario (Mission), as well as The City of Lost Angels. Players can get one of the relics for free by talking to Zlatan in Gangos and completing the Side Quest chain (Hail to the Queen > Path of the Past > Bozia Incident > Fire in the Forge). For the next relics you will have to complete the Repeatable Resistance Is (Not) Futile, where Zlatan asks you to get and return 4 Thavnairian Scalepowder (available from Auriana in Revenant's Toll (x: 22.7 à y: 6.7), Hismena in Idylshire (x: 5.8 à y:5.2), or various Splendors near the main Aetheryte in any major city except the Crystarium for 250 Tomestones of Allagan Poetics each, or is 1,000 total). Enhanced Resistance Weapons (iLv1 500) Main Article: Enhanced Resistance Weapons/Mission To upgrade their weapons, players must be at level 80 with a Disciple of War or a Disciple of Magic and Votes of Research Main Virtue Scenario, Acts of Cruelty and both Search Side Where Nest of the Eagles that the Search Side A Sober Proposal, as well as owning one of the Weapons of Resistance obtained in the Side Quest Fire in the Forge. Players can take the first step to upgrade their relics by talking to Zlatan in Gangos and completing the Repeatable For Want of a Memory Search by exchanging 20 Tortured Memories of Dying, 20 Painful Memories of Dying and 20 Painful Memories of Dying obtained as random drops from skirmishes, Critical Commitments and enemies found in the Bozjan Southern Front or as guaranteed drops by FATE located in Heavensward areas. You don't need to have your Resistance weapon outfitted, or even be the same job, to gain tormented/painful/tornful memories. Although Critical Commitments are not the fastest way to collect memories of the dying, it is strongly recommended to execute Critical Commitments in any case up to grade 10, as this is required for one of the next steps. The weapons of the Enhanced Resistance are identical to their non-enhanced versions, but can be colored. After reaching the tenth grade, you may prefer to cultivate any remaining memory of the dying from FATE Heavensward, since the fall rate is only average in Bozia, but 100% from FATE Heavensward with Gold rating. Memories can be acquired from the following areas: You don't need to have the Resistance Weapon equipped, or be the same job, to get tormented/painful/wrenching memories. Recoverable Weapons (iLv1 500) Article Recovery/Mission Weapons Players can upgrade their weapons again by completing the Repeatable Search The Will to Resist by exchanging 6 Bitter Memories of the Dying from Level 60 Dungeons, once a day from Roulette Duty: Leveling or as a random random drop Enemies found in the Bozjan Southern Front. You don't need to have your weapon of Enhanced Resistance equipped, or even be the same job, to gain bitter memories. Please note that you have to do it "correctly". This means that you cannot unsynchronize it. Souvenir weapons get an etheric glow effect, and can be colored. Weapons of the Order of the Law (iLv1 510) Main Article: Weapons of the Order of the Law/Mission Before proceeding, you must first raise your resistance to Bozia to 10 and complete the Castrum Lacus Litore. Then you'll need to complete the A Sign of What's Coming side missions, Fit for a Queen and In the Queen's Image to advance the story of Save the Queen. Blades of Gunnhildr. This will require the completion of a solo story, as well as the elimination of the raid Delubrum Reginae. The next step comes from the Repeatable Weapons Change. You'll have to procure and return 15 bad memories of death. They can be purchased from one of the following sources: Defeating the final boss of Castrum Lacus Litore guarantees 5 memories. Eliminating every alliance raid at the Crystal Tower, you guarantee 1 memory. Completing critical engagements in the Bozjan Southern Front has the opportunity to grant 1 memory. As with the previous steps, you don't need to have your memory weapon equipped, or even do the same job, to gain disgusting memories. Once upgraded to Law's Order, the weapons will have a new model, and will no longer shine. First Grind One-Time Before you can unlock your ability to raise your weapon of the Order of the Law, you will need to complete the only side search The Resistance Remembers, which requires you to collect and return 18 Obsessive Memories of Dying and 18 Seeking Memories of Dying. This grinding must be done only once, and must not be repeated for other weapons. (*) Increased possibilities in the patch 5.45 Weapons of the Augmented Law Order (iLv1 515) Main Article: Weapons of the Augmented Law Order/Mission Next, to upgrade your weapon you will need to complete the Repeatable Search A New Path of Resistance, which requires you to collect and turn in 15 artifacts consumed over time. After returning them, you will need to decide how to allocate the stats to your weapon. Once upgraded to Enhanced Law Order, the weapons will have a glow effect. Reassigning stats (Optional) If you decide to change the stats of the Augmented Law Order weapon, you can do so by talking to the Allagan Node (x5.9, y4.8) in Gangos and selecting "Forged Anew". You will need to equip your weapon with the Augmented Law Order and return 4 ampoules of Aetherial Sealer, which can be purchased by Auriana in the Toll of Revenant (x: 22.7 à y: 6.7) or Hismena in Idylshire (x: 5.8 à y:5.2) for 100 Allagan Tomestones of Poetics each, i.e. 400 in According to Grind One-Time After completing A New Playing Field, you can complete the What Dreams Are Made Of mission, which explains the next steps and requires you to talk to some PNGs. PNG, you will have to complete the following missions once: Spare parts, tell me a story and a background memory, you can take them all at once, this grind just needs to be done once, and does not need to be repeated for further weapons. objective 1 source of loot object 2 parts adxl spare parts for skirmish in zadnor southern plateau (zone 1j1 for alexander light raid (1, 2, 5, 6, 9, 10) compact2 for critical engagement in southern zadnor plateau (zone 1j) for alexander light raid (3, 4, 7, 8, 11, 12) tell me a story a day in the life: battles for all three of these missions, you cannot use the undersized party option to perform unsynchronized incursions, you have to perform them properly with the full parts at their appropriate levels, a quick and easy way to get these elements is to perform the following instances: - alessandro 2 (the father's breath) and 4 (the father's burden) - deltascape 1 and 3 - eden 1 port (resurrection) and 3 (inundation) you get only one drop per ride but short waiting times and fast clears compensate for it. after completing the three missions listed above, complete the search once a done deal. Blade weapons (iLv1 535) main article: blade's Weapons/Quest next, you'll have to do irresistible repeatable research, which requires you to collect 15 raw emotions. these can be obtained from the following sources: 3 for free of the dalriada. 2 for free of the queen delubrum. 1 for each level 70 dungeon storblood, a possibility of 1 for free of every 10 floors of sky-on-high. The higher the floor, the greater the possibility of falling, at the time of turning into the search, you need to decide how to assign statistics on your weapon, this step will complete the blade weapon, which will acquire a new model and a luminous effect. In addition to the replica that regana sells, it will also offer a "matte replica" version of the blade weapon, which has the same model, but no luminous effect. replicas cost 1,000 each. resistance armor table weapon tier lvl pld war drk gnb whm sch ast mnk drg nin sam brd mch dnc blm smn rdm resistance 485 increased 500 recollection 500 law's order 510 augmented law's order 515 blade's 535 535 535
